Subject: Reference

Melitrade a.s. is a supplier of hygienic paper products and related merchandise, produced both under its own LINTEO commercial brand as well as under the brands of selected retail chains. We work together with suppliers in the Czech Republic as well as abroad, and we therefore frequently need to translate technical or business and legal documentation.

In the area of translations, we therefore work together with the VČELIČKA translation agency on a long-term basis. Speed, high-quality work, flexibility as well as the willingness to provide the requested services according to the client's needs, together with a reasonable and clear pricing policy are the valuable assets that we get with this cooperation.

That is why we look forward to continued cooperation in the future.

Best regards,

Melitrade a.s.

Represented by Mgr. Jiří Purket

Chairman of the Board of Directors
